## AWESOME ARCTIC ANIMALS

Today's theme is all about the animals of the Arctic! The Arctic is located at the most northern part of the world. It is made up of Alaska, Finland, Greenland, Iceland, and Canada. It's very cold in the Arctic, but there are still lots of animals that love to live there. These animals love the cold. The Arctic is very important because it helps keep all of the world's weather balanced. It's also where lots of people and animals call home.

Today's fun includes a connect-the-dots, an exercise to test your smarts, and a crossword puzzle!

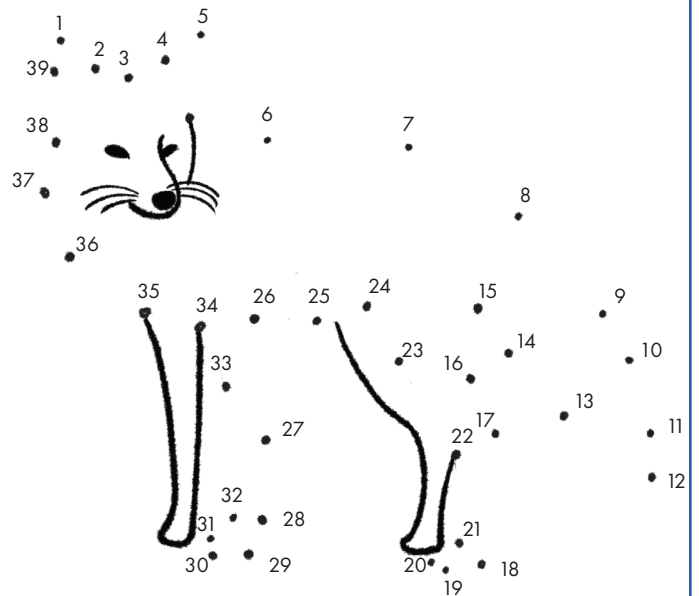

# Camouflaged Connect the Dots

Most of the animals in the Arctic are hard to see. A lot of the animals camouflage into their environments. Camouflage helps animals blend in to their surroundings. This makes them hard to find. Connect the dots and identify each hidden animal!

# Air, Land, or Water?

All types of animals live in the Arctic. Some animals fly around, others walk and run on the snow, and the rest swim in the seas. Label where each animal spends most of its time. Be careful! Some animals like to spend their time in more place than one!

The Arctic wolf spends its time
