JAM OUT!

Today's theme is all about letting loose and jamming out! Music is important because it makes you feel good! Music can pump you up, slow you down, help you think, and help you express yourself. You can listen to it, write it, and play it! Music also comes in many forms! Music can be a song with words, or just instruments. It can also be hummed, tapped, scratched, and thumped!

Today's fun includes a coloring page with different instruments, a craft where you will make your own album cover, and an activity to help you make your own music around the house!

Coloring is My Jam

Your band is back in town! You are about to play together at your first gig!
Color in your band's instruments before they go on stage!

Make Your Own Album Cover

Your band is super popular! You have a few songs and lots of fans! Now it's time to make your own album cover! An album cover is the first thing people see when they buy your music! Make sure you include your band name and drawings that are unique to your band! Use crayons, markers, colored pencils, to create your cover below.

KEEP IT GOING!
Add a few song names to your cover!

Making Music

Any object around the house can be made into a musical instrument. As long as it makes some noise then it is an instrument! Use the chart below to learn about the different types of instruments. Then go around your home to find objects that are similar to those types!
